STEEL MILL WILL OPEN NEW CAFETERIA SOON

A large, new cafeteria has just been completed at the Pacific Coast steel mill and will be opened soon. The new eating house is for the benefit of the employees.

HERE'S HOW TO GAIN A MILLION VOTES.

A five-year subscription (only \$12.50) in The Enterprise-North End Progress Automobile Prize Contest represents 20,000 votes. Twenty-three such subscriptions means 460,000 REGULAR votes. Then, in addition to the REGULAR votes allowed on each subscription, 50,000 SPECIAL EXTRA votes are issued on each "club" of \$25. So, twenty-three subscriptions of this kind means eleven "clubs," and eleven times 50,000 means 550,000 SPECIAL votes. Therefore, twenty-three five-year subscriptions, or approximately its equivalent in shorter term orders or Adv. and Job Printing cards, means 460,000 REGULAR votes plus 550,000 SPECIAL votes, or a grand total of 1,010,000 votes. Easy enough, isn't it? Candidates, haven't you got twenty-three friends who would help you to the extent of a five-year subscription, or an Adv. and Job card order, toward helping you win that splendid new "Baby Grand" Chevrolet touring car, worth \$1500.00? Try it and see! Or, Mr. and Mrs. Subscriber, wouldn't you be one of a small party of twenty-three to help your favorite pile up a million votes or so toward winning the grand capital prize of this contest? Your time is limited; act quickly before it is too late!

S. F. WOMAN KILLED AT SAN BRUNO CROSSING

Mrs. Gilbert Wilkison Struck by Southbound San Mateo Car; Death Instantaneous.

Mrs. Gilbert L. Wilkison of 535 Valencia street, San Francisco, was struck and instantly killed by a southbound San Mateo electric car near the crossing at San Bruno at 11:30 Saturday morning. The woman's skull was fractured.

There was no witness to Mrs. Wilkison's death except the motorman of the death car. At the inquest held at the city hall in South San Francisco Tuesday morning, the motorman stated that Mrs. Wilkison was evidently sitting in the little waiting station by the crossing waiting for a northbound car. Cars coming from both directions approached the station together, the southbound car on the track toward the station being the nearer. The motorman stated the woman suddenly emerged from the station, which is not more than two paces from the track, and the corner of his car struck her. He said he was going only about twelve miles an hour at the time and stopped his car within twenty feet.

Mrs. Wilkison's body was taken to Deputy Coroner S. Nieri's morgue at South San Francisco, where it remained until Sunday afternoon before being identified. At that time the woman's husband, having learned through the San Francisco police, whom he had notified of his wife's disappearance, that a woman had been killed at San Bruno, arrived. Mr. Wilkison stated his wife left their home Saturday morning to attend the opening of the San Bruno municipal market. She was about to take the electric car back to the city when killed.

Mrs. Wilkison was 55 years of age. The funeral took place Wednesday afternoon from the Nieri undertaking parlors. The burial was at Woodlawn Cemetery.

Mrs. Wilkison is the second woman victim of the electric cars at San Bruno crossing within six months. Mrs. Nellie Geddes of San Bruno having been run down and killed within a few feet of the same spot on January 24th.

THOMAS LEACH MEETS A VIOLENT DEATH

Well-Known Postal Employee Crushed Beneath Car Which Overturns on Highway at Baden.

Residents throughout the north end of the county were shocked early this week to learn of the violent death of Thomas Leach, who was killed at about midnight Monday night when the car in which he was riding with Mrs. Leach and their son struck a horse running loose on the highway and turned over in the ditch. Mr. Leach has been a resident of San Bruno for many years and is very well known in that town. He was employed as a mail carrier for a couple of years at Daly City, and following an accident this spring when he had his leg broken, was sent to the South San Francisco postoffice as a clerk. He began work in this city June 22d, and was known as a pleasant and accommodating attendant.

The Leach family were driving north on the highway near the Standard Oil station at Baden. Their heavy touring car on striking the horse swerved to the left and went over. Leach was so badly crushed he died soon after reaching St. Luke's Hospital, where he was rushed. Mrs. Leach was also badly injured. Young

S. F. METAL COMPANY BUYS OLD SMELTER

Wildberg Bros. to Operate the Old Chapman Smelter Plant.

A deal has been closed whereby Wildberg Bros., metallurgists of the Pacific building, San Francisco, have purchased the Chapman smelting works in this city and plan to operate a metal plant here. Work has already begun remodeling the building and putting the grounds in shape for active operations. The firm will conduct a metal plant and will employ about fifty men. This is a development of considerable importance to South San Francisco, as the Chapman smelting works has been in disuse for a couple of years. It is situated east of the Pacific Coast Steel Company's big mill and near the plant of the American Barium Company.

Leach, who was driving, escaped injury by a miracle, as the car was practically demolished. Constable Landini and Deputy Warren of Daly City hurried to the scene, but passing motorists had already removed Leach and his wife. The horse they struck had to be shot, so bad were its injuries.

PEDRO VALLEY MAN KILLED BY THUGS

Gang Beats Keeper of Adobe House, Causing His Death Next Day.

Attilio Monocci, Pedro valley farmer and keeper of the "Adobe House" hotel, was foully murdered by thugs at an early hour Sunday morning. Police of San Francisco and San Mateo county are looking for the perpetrators of the outrage, and it is believed they will be apprehended. Mrs. Monocci, wife of the murdered rancher and a witness of the killing, identified the picture of A. Bacigalupi in the rogues' gallery, San Francisco, as that of one member of the gang. Bacigalupi is known to have served two terms in prison.

According to Mrs. Monocci's story, a gang of six men came to their house at about 5 o'clock Sunday morning and demanded food. While Monocci was preparing it, one of the men went into the yard and pulled a chicken off its roost. When Monocci remonstrated with them, two or three struck him, evidently with brass knuckles, knocking him to the ground. Monocci never regained consciousness.

TRUSTEES MEET IN REGULAR SESSION

Consider Making Assembly Hall in Top of New City Hall Building; Pass Two New Ordinances.

The South San Francisco city trustees may take steps to have the room in the third floor of the new city hall building finished and equipped as an assembly hall, if plans discussed at Tuesday night's meeting of the board take form. The matter was brought up by Mrs. Carrie Winterhalter, who informed the board she had inspected the premises and found room in the third story for a fair-sized assembly hall, and asked that the board consider a proposition to finish this room and turn it over to the American Legion as a meeting hall in commemoration of its services in the great war. Mayor Holston stated he would get Architect Werner to come down from the city and go over the building with Mrs. Winterhalter and others interested and learn just what can be done.

The application of Mrs. J. Jeffrich for permission to build a garage on her property between Maple and Linden avenues occasioned much discussion, inasmuch as the plans for the structure do not call for a fireproof building, although it is within the fire district limits. The fact that several non-fireproof garages have been built within the city fire limits within the last few years, some of them without securing any permit, made the board hesitant about refusing this permit to the applicant. A solution was finally reached by the granting to Mrs. Jeffrich of the desired permission on the condition that the building be allowed to stand for one year only.

The curfew ordinance and the ordinance prohibiting the sale of firearms in South San Francisco both came up for their second reading at this meeting, and both were passed without a dissenting vote.

A motion to pay the city hall architects \$1500 out of the city hall fund was passed.

Reports of city officers for the month of June were read and accepted.

Fire Chief Truax was instructed to have the fire department burn off dry weeds and grass on vacant lots around town.

Trustee F. A. Cunningham was instructed to have the fire hydrants in town painted white at a cost not to exceed \$95.

Current bills amounting to \$2168 were read and ordered paid.

MILLION VOTES REACHED AND PASSED

MUCH DEPENDS ON EFFORTS IN NEXT FEW DAYS AS TO WHO IS TO FINISH VICTORIOUS; TENSE EXCITEMENT; SUBSCRIBE NOW!

They're coming down the stretch! Candidates in The Enterprise-North End Progress big automobile prize contest have reached the turn, maneuvered themselves into position for the final go, and from now until the finish will be battling for supremacy under whip and spur.

The first period of the contest, which closed last Saturday night, was a tremendous success. Hundreds of thousands, yes, millions of votes, were issued, their strength being manifested for the first time in this week's issue.

It is a strange coincidence, something unusual in affairs of this kind, but most of the leading candidates benefited so equally during the period just closed that it depends ENTIRELY upon the results obtained between now and the finish as to who the ultimate winners will be.

The above is not "mere talk for the sake of talking," but fact—theories, rumors or visible evidence to the contrary notwithstanding. The competition, therefore, so far as the relative standing of candidates is concerned, stands just where it was. Hence, the struggle for supremacy will be fought out during the second period, which schedule is now in effect.

Actual Test Now Ahead

Now for a whirlwind finish. Now for sensations and surprises. Present leaders must increase their vote totals mightily if they wish to "finish in the money." As may be seen by glancing at the vote totals opposite, all of the leading candidates are entirely too close together to be safe, so developments are bound to happen.

It is in you to win if you will. This is the final test. These are the days that test your resourcefulness. Here is where your courage upholds you and makes you fight, or the lack of it takes the stiffness out of your knees and leaves you trailing in the dust, an "also ran." Sometimes, too, your supreme courage urges you on even when you tire, but that is the gamest (Continued on page 6, col. 3.)

MISS EVELYN PETTINGELL Of Daly City

Most spectacular of all in The Enterprise-North End Progress automobile contest is the sudden climb recorded by Miss Pettingell, who, within a week's time, sprang from comparative obscurity in the race to among the "top-notchers." Watch Miss Pettingell go!

ELDER APARTMENT IS ROBBED MONDAY

Thieves Enter While House Is Deserted; Fire at the Returning Owner.

An attempt was made Monday night to rob the Dotson house at the corner of Spruce and Miller avenues. That success did not crown the efforts of the thieves was apparently due to the entirely unexpected arrival home at about 9 o'clock of Charles Elder, who with Mrs. Elder occupies one of the four apartments in the house.

It would appear that the attempted robbery was the work of somebody acquainted with the movements of the inmates of the house, as all occupants of the apartments were away Monday. Mr. Elder returned in the evening, and was passing around the house to enter from the rear when suddenly a shot rang out and a bullet grazed his cheek. The firer of the shot was hiding in a clump of trees at the rear of the house, evidently on watch. Unable to overtake his assailant, who ran

CITY MARKET SCORES SUCCESS AT OPENING

Enthusiastic Support Given New Project; Produce Is Sold Out by 5 o'clock.

The opening day of the San Bruno municipal market last Saturday was an unqualified success. Eight booths were rented for the opening and six were occupied. Every booth sold out its entire stock by 5 o'clock p. m. The enthusiasm shown by the San Bruno people was great and tends to show what the people think of the project.

The machine play, that is stopping the machines on the road, worked wonderfully. Everybody that stopped seemed interested in the project and not one went away without carrying some article under his arm.

The success on its opening day was partly due to publicity given it in the San Francisco papers. George Clark, active head of the market, expressed the opinion that if this opening day may be taken as a criterion, the success of the market is assured. Everything is sold a little below actual market quotations. The two booths which were rented but unoccupied were rented to the New Standard Grocery and P. J. Sullivan, Mr. Sullivan renting his for his real estate business.

How Many Homes Have You Paid For?

And how many homes do you own today? Recently a man came into our office that had decided years ago to apply his rent money toward the payment of a house. He soon rented the house to another fellow and his rent paid the balance on the house. He bought himself another one and another one, until today he owns several homes and has quit work. The rent money he now collects means a substantial income to him. The future is sure, bright and smiling for his wife and children.

Rent day never comes around to the man who owns his own Home.

A deed to your home is the best form of life insurance you can have.

We will build you a house to order, exactly as you plan it and upon a lot that suits your ideas. A small payment down and your rent money will pay for it. The man who owns his own home not only saves rent but makes money on the increased value in his property.

SPORTS, OR GOATS?

Are we American people sports, or are we just plain goats? European countries owe the United States ten billions of dollars, loaned to them during the war against Germany. This money will soon be due, and it is intimated that the allies either can not or will not pay they intimate the former, but we suspect the latter.

Our friends across the water, it seems, do not want to pay us until after they have collected the money from Germany. And when they do get the money from Germany it is even possible that they will suddenly discover some more urgent and pressing need for it.

Makes a fellow feel fine, doesn't it? Quite sporty, or goaty, whichever term pleases you. Europe tells the United States it is short of sugar—it must have sugar. We, too, are short—very short—but we send it to them, hundreds of millions of pounds. Of course that shoves up the price of what little we are able to buy ourselves. But that doesn't matter to us sports, or goats. We just revel in coughing up lively for the benefit of our dear friends across the water.

Why should we ask Europe to pay us the paltry ten billions of dollars they owe us? Would that be sporty, or goaty? Why should we tell them they can't have our sugar, because we haven't enough ourselves for our canning and our tables? Would a sport, or a goat, be so ungenerous? Why not give them everything they want, and thank them for taking it? Wouldn't that be quite sporty, or tremendously goaty? Why not be genuine sports, or whole-hearted goats, while we are about it? For isn't it quite jolly to be a sport, or supremely comforting to be a goat?

POLITICS AND PLATFORMS.

The two great political parties have held their conventions, adopted their platforms, and nominated their candidates for the presidency. The Republicans took nearly a week to accomplish this, the Democrats over a week. During this time the big metropolitan papers published thousands of columns of gush, mush, and slush about the convention, some of which, possibly, was read by their subscribers. The platforms were published in full. Who in San Mateo county, we wonder, can now tell what the planks of each platform meant, what each party stands for, and what the differences between the platforms and parties are. Don't all speak at once.

It was really unkind of our office devil to suggest that some men prefer to go to hell because they know they can't get a drink in heaven.

It is no longer considered hazardous to buy a pig in a poke. If the poke is made of cotton it is more valuable than the pig.

Those alluring curves of the feminine form are rapidly ceasing to be attractive. The masculine mind soon loses interest in anything that becomes common.

Trouble with these political planks is that there is too much politics and too many planks. One can't take the time to read them and still earn three meals a day.

We have reconsidered our hard and fast rule of not publishing the effusions of local poets. We now make a modest charge of a dollar a line, cash up and no discount.

IN THE COURT OF JUSTICE W. J. SMITH

The case of Thomas Naro, the San Francisco youth who, in company with a young man named Edward Gump, also of San Francisco, is accused of having robbed a ranch near Colma of \$150 and some silverware, was heard Wednesday. Naro being held for trial in the superior court. District Attorney Swart prosecuted the case. Attorney Mansfield of Redwood appeared for Naro, being assigned to the case by Judge Smith.

W. B. Pemberton, charged May 19th with having undersized abalones in his possession, was tried July 6th. Pemberton pleaded guilty. He was fined \$25, but in view of the fact that the man was in ill health and also ignorant of the fact that the taking of such abalones was forbidden by law, Judge Smith remitted \$15 of the fine.

Charles Gerace appeared July 6th on a charge of having quail and rabbits in his possession out of season. He was fined \$50, \$25 on each charge. Game Warden Jack Burke appeared against both Pemberton and Gerace.

Frank Yashima, appeared Tuesday and paid a fine of \$25 for driving his car thirty-five miles an hour. He was taken in by Traffic Officer Leland Bond. Yashima contributed \$25 to the county treasury.

John Doe Venturi, charged by Burke with killing deer out of season, pleaded guilty and was fined \$100. Carlo Venturi, father of John Doe, was tried on a charge of having venison in his possession out of season and was found guilty. He was fined \$50. The men come from the Pedro valley.

The case of Matt Callan of Colma, charged with driving an automobile

while intoxicated, came up for hearing Wednesday, but was postponed till August 6th at 2 p. m.

Manuel Tobash of South San Francisco has brought a civil action against George Acosti for \$57.50, alleged due on a loan. The case will be heard Saturday morning.

A writ of replevin in the case of Mrs. Annie Avery against Richard Oliver was filed Wednesday. The case hinges on the fact that Mrs. Avery charges Oliver with retaining in his possession furniture belonging to her. The case is from Judge Johnson's court at Daly City.

H. J. Sheehan has filed a civil suit against H. H. Hullbush and G. Gerber for \$30.82, alleged due on account of milk sold the defendants.

F. Damanti, charged with assault with a deadly weapon, the complainant being Frank Botalli, is to have his trial this afternoon (Friday). This is a case transferred from Judge Johnson's court.

The case of Katherine McGinnis of Daly City, charged by Conductor Von Sydow of the United Railroads with battery, was heard Thursday morning. Judge Smith found Mrs. McGinnis guilty and fined her \$50, but withheld the payment for six months, putting Mrs. McGinnis under probation for that period.

Charles Barsotti and Leo Del Pogetti were up in court on a charge of killing deer out of season. Both young men pleaded guilty and were fined \$25, the minimum for the offense. Judge Smith read the two a severe lecture, in which he stated that they were deserving of a jail sentence and if either was brought into his court again he would fine him \$500. They were arrested by Game Warden Jack Burke, the deer killing having taken place in Pedro valley.

FRATERNAL BROTHERHOOD INITIATES NEW MEMBER

Last Friday evening the Fraternal Brotherhood Lodge enjoyed a very pleasant evening. After balloting on three applications, Orman New was initiated into the mysteries of the society. In the absence of the president, the senior past president, A. A. Whitten, filled the chair. This is the first time Brother Whitten has given the unwritten work since the organization of the lodge nine years ago. The lodge is planning to celebrate its ninth anniversary on the 30th of this month.

PLANS GOING FORWARD FOR BIG BABY SHOW

The work of furnishing the new city Health Center at 431 Grand avenue is going on daily, the place now approaching readiness for operations. The first big event will be the baby show, beginning August 2d and lasting one week. Local doctors will examine all babies presented and prizes will be awarded the most perfect of the youthful specimens of humanity. There will be an attendant at the center every afternoon this week to register all baby entrants to the big show. It is believed this show will put South San Francisco on the map as the home of perfect babies.

Those in charge of the arrangements for "baby week," the week of the show, are hoping to have Dr. Ethel M. Watters, director of the State Bureau of Child Hygiene, in attendance one afternoon. Dr. Watters will not be present in the capacity of an examining physician, but will meet and confer with any mothers wishing advice looking toward the welfare of their children.

From all indications there will be many South San Francisco mothers avail themselves of the opportunity offered at the city's Health Center to secure the best of advice on the vital subject of child health.

LIBERTY BAND IN PARADE AT SAN ANSELMO MONDAY

The Liberty Band of this city went to San Anselmo Monday and took part in the big Fourth of July celebration and parade at that place.

FOUR WANTED IN ORE. TAKEN IN THIS CITY

Constable James Wallace made an arrest in this city Wednesday of three men and a woman wanted in Grant's Pass, Ore. The quartet arrived in San Francisco Wednesday from Oregon, and immediately left for the south in a large touring car. The city police notified Wallace to be on the lookout for them, and when they stopped at the South City Garage for supplies Wallace picked them up. San Francisco officers arrived soon afterward and took them in charge. The four protested their innocence of any wrongdoing and gave the names of William Mueller, 48, rancher; Robert McFarland, 27, laborer; Lloyd Musto, 19, rancher, and Fritzie Mraz, 20.

The wire from Grant's Pass did not state the nature of the charge against them except that it was a felony.

And now it will be quite the correct thing for all sorts of people without brains to inquire into the mental capacity of our respected candidates for the presidency.

ORE AT HILLTOP MINE STILL SHOWING WELL

The work of cross-cutting is now well under way at the silver-lead mine on top of the hill near the high school. The lateral cut at the bottom of the shaft has now been pushed fourteen or fifteen feet, and fine ore is still being taken out.

T. V. Barton, discoverer of the mine and present manager of operations, states somebody came near blowing himself into eternity some days since by throwing rock into the shaft when the workmen were absent. The top was covered, but through a crack somebody dropped rocks, breaking a ladder and a bucket and narrowly missing a large quantity of dynamite in the bottom of the shaft. This in spite of the warning signs posted around the premises.

dying at St. Luke's Hospital next day. Mrs. Monocci declares the man she identifies as Bacigalupi, tried to call his companions off, saying: "I don't want trouble. I am under bonds now." He then drew out a large roll of bills and offered to pay any damage asked. Some of these bills, the woman declares, were of very large denomination. The police believe the gang is the same that held up and robbed a half dozen motor parties on Bay Shore road Thursday of last week.

CAR STRIKES WAGON; SPUDS SCATTERED WIDE

At a late hour Thursday night a machine driven by A. Crabrari of San Bruno collided with a wagon loaded with potatoes and driven by an Italian, whose name was not taken. The accident occurred on San Bruno road just south of the Prest-O-Lite plant. The wagon had no lights, and Crabrari's car struck it from the rear. Crabrari was cut by flying glass, while the other man was taken to the hospital with a broken arm.

HOT WATER

MORE NECESSARY IN SUMMER THAN IN WINTER

Summer brings no lessening demand for HOT WATER.

It is then that an abundant supply is even more necessary because of the many articles of light wearing apparel that enter into the family wash.

Summer comfort requires many fresh, cool changes of clothing. The children's dresses and washable suits must be kept fresh and clean in spite of the wonderful opportunities to get them dirty playing out-of-doors.

Then there are the frequent baths that are so delightfully refreshing at the end of the hot days and dusty walks or drives on country roads.

The unfailing source of all the hot water you can use is an INSTANTANEOUS GAS WATER HEATER. It is not expensive to operate because gas is consumed only when hot water is being drawn.

NOTIZIE DALLA CONTEA IN ITALIANO.

THOMAS LEACH UCCISO DALL'AUTOMOBILE

Lunedì verso la mezzanotte, l'impiegato postale di South San Francisco Thomas Leach, dimorante a San Bruno, fu ucciso dall'automobile che guidava, quando collise con un cavallo in fuga sulla strada statale nelle vicinanze del crocivio di Baden. L'automobile si capovoltò ed andò a precipitare in un fossato travolgendo e schiacciando il povero Leach il quale moriva poche ore dopo all'ospedale.

Nell'automobile si trovavano pure la moglie ed il figlio del Leach. Quest'ultimo fortunatamente rimase illeso, mentre la madre subì varie ferite per le quali si dovette trasportarla all'ospedale.

VISTOSO GUADAGNO DELLA CONTEA NEGLI ASSESSAMENTI

La lista degli assessori presentata dall'assessore della contea D. P. Flynn, ai consiglieri conteali, dimostra la bella somma di quasi mezzo milione di guadagno in più dell'anno scorso. Detto guadagno è causato dall'aumentato prezzo della valutazione della proprietà.

La seconda municipalità (township) diede il maggior guadagno.

AL CONSIGLIO CONTEALE.

I consiglieri della contea di San Mateo si sono dichiarati in favore all'aumento degli interessi dei \$40,000,000 di obbligazioni statali emessi per la costruzione di nuove strade nella California. Ciò renderebbe le dette obbligazioni più vendibili.

COSE MUNICIPALI.

Alla riunione dei Consiglieri Municipali di South San Francisco, che ebbe luogo Martedì sera, furono passate le due nuove leggi; la prima, che proibisce ai ragazzi minori dei quattordici anni di essere in giro soli per le strade dopo le ore 9 di sera; e l'altra che proibisce la vendita di qualunque arma da fuoco nei limiti della città.

Le due nuove ordinanze andranno in vigore trenta giorni dopo la loro approvazione.

I LADRI VISITANO LA CASA DI DOTSON IN SO. S. F.

Lunedì sera i ladri fecero un sopralluogo nella casa del Sig. Dotson, situata in Miller Ave.

La casa, la quale è divisa in appartamenti, è abitata da quattro famiglie. Lunedì fu completamente deserta fino alle ore 9 di sera, quando Charles Elder, inquilino della casa, fece ritorno. Nel mentre questi entrava nel cortile, qualcuno, nascosto dietro un folto cespuglio, dopo avergli sparato un colpo di pistola in sua direzione, spariva nell'oscurità.

L'Elder scampato così miracolosamente dalla morte, entrò nel suo appartamento il quale lo trovò saccheggiato. I ladri furono spaventati prima che attentassero agli altri appartamenti.

RANCIERE DI PEDRO VALLEY UCCISO DAI LADRI

Atilio Monocci, un ranciere di Pedro Valley fu assassinato nella sua casa, da una banda di ladri. Il misfatto avvenne Domenica mattina verso le ore 5 in seguito alle rimostranze che il Monocci fece ad uno della banda che fu colto nell'alto di rubargli una gallina.

Gli assassini tutto in un colpo gli furono addosso e lo picchiarono in tale maniera, che il giorno appresso il povero Monocci dovette soccombere.

La signora Monocci riconobbe in uno degli assassini da una fotografia in possesso della polizia di San Francisco.

Egli risponde al nome di A. Baccigalupi il quale ha già servito per due anni nelle prigioni.

MANSLAUGHTER CASE AGAINST CONDUCTOR

The case of Motorman Chrisman of the United Railroads, charged with manslaughter in connection with the death of Richard Wallace, who was run over and killed recently by a street car, came up in Judge Dowd's court Wednesday, but at the request of Attorney Sheehan, who represented the railroad company, was postponed to August 6th.

Phillip Racchie and Joe Colombo, arrested recently for robbing the Galli saloon, were arraigned Wednesday and their trial set for August 6th. The youths are accused of stealing about \$600 worth of wines, liquors, and cigars.

fight of all.

'Tis the coward who quits to misfortune;

'Tis the knave who changes each day;
'Tis the fool who wins half the battle,
Then throws all his chances away.

The battle is fought on the "home-stretch."

And won—'twixt the flag and the wire.

Votes will pile up rapidly during the next ten days; that is, while the second period schedule is in effect. The liveliest part of the competition is now at hand; and, while all the candidates are on exactly the same footing, at the same time those who want to, and WILL, are afforded the opportunity of the contest to forge ahead and corral the winning votes.

Second Period Votes Count Big

During the second period subscriptions and Adv. cards still count for big votes. In fact, they count for almost as many now as during the first period, just closed. For example: Two five-year subscriptions, counting the 50,000 SPECIAL votes allowed on "clubs," count for 90,000 votes now where formerly 100,000 votes were given; ten yearly subscriptions now mean 70,000 votes, where 80,000 votes were issued before—providing, of course, they are turned in before 8 o'clock July 17th—one week from this Saturday night.

Better Be Safe Than Sorry

A few more laps and the course will have been run. Only a short time remains to choose between victory and defeat—success or failure! Don't overlook a single chance to better your chances to win. Avail yourself of the opportunities this period affords. Think and plan constantly for success. Figure ways to win, and always remember that your adver-

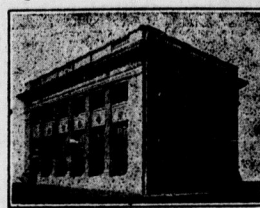

saries, as keen and resourceful as yourself, are racking some very acute brains for the same purpose.

It means something to win in a competition of this kind. It is a demonstration of capacity that is extraordinary. It proves a winning personality. Sometimes it proves up the

"yellow" in your bogus friends, but it reveals the true ones, and it always tests your mettle and measures your strength.

From now until the finish is the time when 100 per cent efficiency counts!

SOUTH SAN FRANCISCO

A HISTORY

Another pioneer contractor and builder is William Rehberg, one of this city's surviving old-time residents. Among the monuments to his skill and enterprise are the D. O. Daggett (Joe Walker) residence and the Baden and Linden hotel buildings.

Judge Rehberg, a Detroit, Mich., man, finally quit the building business and took over the big barn on Cypress avenue built by Dunn & Co. and occupied through 1892 to house the teams and vehicles used in their real estate business. Rehberg named it "The Detroit Stables," and carried on for a number of years a livery and

teaming business.

Frank Miner is also a pioneer contractor and present resident of this city. He is a California pioneer as well. He came to South San Francisco July 10, 1892, from a mining district. He found a mining man named C. G. Ferguson with a big barn he was eager to sell in order to get back to the mines. Mr. Miner bought out Ferguson, who went back to the Shasta county mines, where he died some years later, dreaming to the last of a bonanza just beyond the end of his pick and drill, which he failed to reach, but there is an inexhaustible well of pure water, struck by Ferguson inside the barn, a lasting memorial, finer than silver or gold.

Mr. Miner remodeled a portion of the barn building as a dwelling, moved in, and for many years made

it his home and place of business, where he carried on teaming and contracting on an extensive scale. Later Mr. Miner built for himself and family a commodious and comfortable home on the hill in block 122. The old barn was in the course of time destroyed by fire, the well was covered over, and there is no vestige left of either barn or well.

John Riley was the first news agent in this city. Early in 1892 Riley acquired the route from Ocean View to San Bruno for the Chronicle and Examiner, making his headquarters in South San Francisco. Riley with his horse and cart was a familiar figure for several years, bringing the two dailies every morning to the people of Colma, the cemeteries district, and South San Francisco. Riley sold his route and it has changed owners several times since, and now belongs to Billy Doyle, one of San Mateo county's "overseas boys." John Riley later engaged in the cattle trade and is now a prosperous San Francisco business man.

The San Francisco Call was a morning daily in 1892, and the Call route from Ocean View to San Bruno was owned and conducted by Eugene Casserly, a member of the old and well-known Casserly family of San Francisco.

In 1892 there were in South San Francisco—that is to say, within the present limits of this city—eighteen public bars, where beer, wines, liquors and cigars were dispensed to the drinking and smoking public. The seven hotels all had bars. They were the Grand, the Armour, the Central, the Union, the Arrival, the Baden and the Linden. In addition to the hotels were eleven saloons, the "Sierra Point House," run by Herman Karbe; "Tom and Billy's," run by Tom Benner; "The Palo Alto," run by Dave Smith; "Foley's Saloon," owned and run by Mike Foley; "The Bijou," run by J. Q. Pearce; "Harder's Saloon," owned and run by Richard Harder; "Neff's Saloon," owned and run by Billy Neff; "Nunn's Saloon," owned and run by John T. Nunn; "The Senate," run by M. F. Healy; "The Twelve-Mile House," owned and run by Peter Regli, who now owns and has owned the place the past forty-five years.

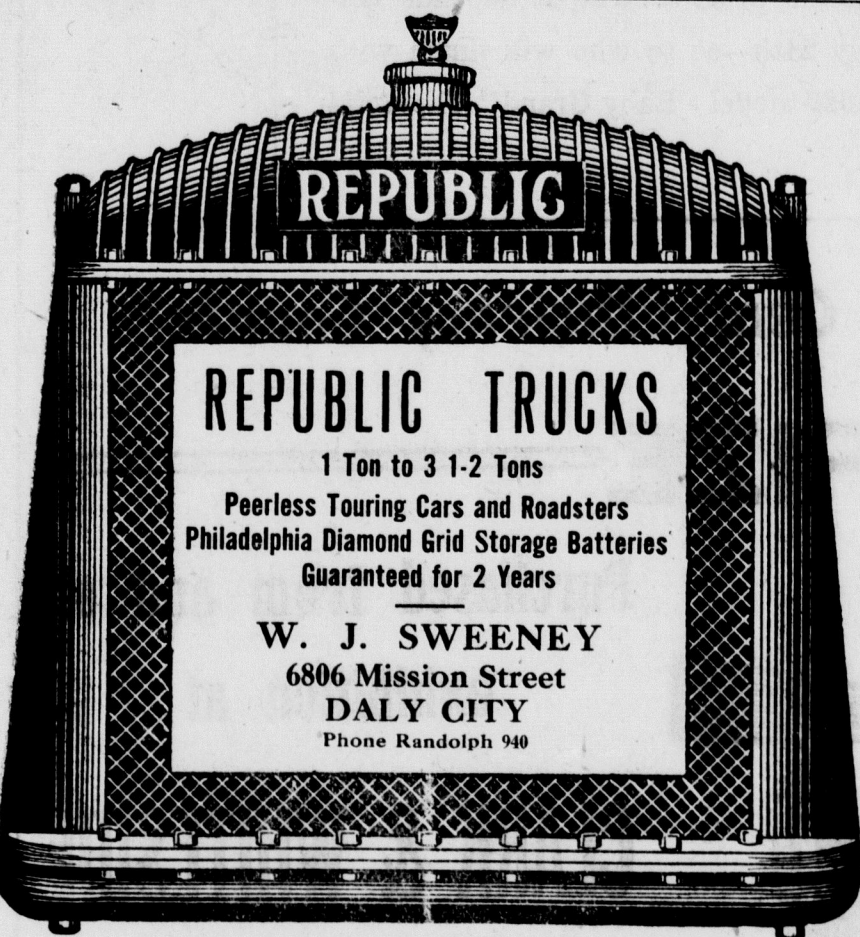

In 1895 South San Francisco contained by count 671 people, big and little, young and old, and in 1892 the resident population probably did not exceed 450, about forty persons per saloon. Whether the pioneers were extraordinary boozers, or the saloons had other sources of support, is not of record, but with all the eighteen bars in full swing, there was not much drunkenness. In fact, there was less drunkenness and much less law-breaking in this city then than there is today under an eighteenth amendment bone-dry law. Under present-day restrictions the respectable, law-abiding citizen, be he foreign or native born, is deprived of his wine or beer at his table or in his lunch basket, while the bum can

readily get all the bootleg booze he can stow away.

George Gouzenes of Millbrae was the first butcher to furnish meat to the people of this city. His home and shop were at Millbrae, and he served the people here by means of a delivery wagon. He began in March, 1892, and continued his service for two or three years. The following year Frank Sanchez, also of Millbrae, commenced running a meat delivery wagon to this city, and continued the service for many years; in fact, until his last illness caused his retirement from active life. Frank Sanchez was a grandson of the Francisco Sanchez to whom the Buri-Buri Rancho was granted in 1821.

MILES OF CARS STALLED ON STEEP MOUNTAIN CLIMB

James McMills, who with his parents drove to Santa Cruz Sunday, tells of being kept waiting on Mount Charley for eight hours while many cars, unable to make the steep grade of the mountain in the soft sand that covered the roadbed, were moved out of the way by teams. McMills states there was a line of machines stretching from the mountains into Santa Cruz, a distance he estimates as nearly twenty-five miles, waiting while many of the smaller cars, unable to make the climb, were hauled to the side of the road in an attempt to keep the way clear. The wait of eight hours was the fate of hundreds of other parties as well as of that in the McMills machine. The terrific climb was in a detour on the mountain side. Many cars had babies and small children on board and much distress was caused by the long wait.

"Of Such is the Kingdom of Heaven"

Inside the great brass statue of Moloch a roaring fire was built on holy days.

And into the seething arms of the pitiless god mothers hurled their screaming infants.

In the South Sea Islands, when either parent died, the children were slain and buried also, to wait the parent in the other world.

In China the girl babies were drowned; in Greece they were exposed upon the bleak and bitter mountainsides.

And even Socrates, the greatest of the Greeks, saw nothing in the practise to condemn.

Thus the ancient heathen world treated its babies.

Who was it that changed the world's thought about children? Who made them the most important citizens of the world?

Jesus of Nazareth. It was He who said "Suffer little children to come unto me and forbid them not."

He gave them the proud privilege of being His friends.

In every age His Church has been the champion of childhood. Dathous, a Christian Bishop, founded the first orphan asylum. All the laws for the protection of children have their roots and their security in His Church.

HUSTLE!

HUSTLE IS THE KEY THAT WILL UNLOCK THE TREASURE CHEST filled with magnificent awards, by far the most valuable and attractive ever offered by any local weekly newspapers--bar none--in recognition of enterprise and action.

Never before has there been such a glittering array of gifts presented, and never before was there such a tremendous battle waged to win them. Present indications point to a hairbreadth finish; and, while it is certain that the winning votes will run well into the millions, it is also reasonably sure that the Grand Capital Prize will be won by a very narrow margin.

NOW FOR A WHIRLWIND FINISH

So evenly have honors been divided up to the present time in The Enterprise-Progress big automobile prize contest, it depends ENTIRELY upon the individual efforts of each candidate between now and the closing day—Saturday, July 24th—as to who will finish with “flying colors” and be acclaimed winner of first honors and the grand capital prize, that splendid new 1920 model “Baby Grand” Chevrolet automobile, worth \$1500.00.
